Uttar Pradesh, India

PROFILE SUMMARY

Motivated and detail-oriented Front-End Developer with hands-on experience in building responsive and user-friendly web applications using React, Tailwind CSS, and JavaScript. Eager to join a creative team where I can apply my skills, grow as a developer, and contribute to real-world solutions.

EDUCATION

2021 - 2024

CHAUDHARY CHARAN SINGH
UNIVERSITY, MEERUT

- Bachelor of Computer Applications

PROJECTS

My Portfolio

[Live Site](#)

React, Tailwind CSS, GSAP, Framer Motion

- Built a fully responsive and modern website enhancing my understanding of front-end development principles.
- Implemented reusable React components and styled them using Tailwind CSS for a clean, consistent UI.
- Deployed the project on Vercel, gaining hands-on experience in deployment and version control.

Portfolio

[Live Site](#)

HTML, CSS, Tailwind CSS, GitHub, Vercel

- Built a personal portfolio website from scratch using HTML and Tailwind CSS to showcase my projects, skills, and experience.
- Focused on clean layout, responsive design, and smooth user interaction across all devices. Leveraged Tailwind CSS utility classes for efficient styling and consistency.
- Deployed the project on Vercel, enhancing my experience with version control, GitHub workflows, and modern deployment practices.

Zentry

[Live Site](#)

React.js, Tailwind CSS, GSAP, Framer Motion, Vercel

- Designed a dynamic landing page using Framer Motion and GSAP for interactive scroll-based animations.
- Implemented modular React components and responsive layouts with Tailwind CSS.
- Deployed via Vercel with optimized asset loading and GitHub CI/CD.
